ST. LUKE’S COVID-19 VACCINE CLINIC
Frequently Asked Questions

Q. What is the process for individuals to receive the COVID-19 vaccine through St. Luke’s Hospital?
A. The State of Missouri has now opened the COVID-19 vaccination program to all Missouri residents 16 years of age and older. A parent or legal guardian must accompany individuals under the age of 18 to their vaccination appointment and provide consent. Please visit our website lukesvaccine.com for more information and to submit a pre-registration request for a vaccination appointment. We can only accept vaccination requests from Missouri residents. If you are not a Missouri resident, please contact your local health departments or check your state of residency’s website for COVID-19 vaccinator sites in your area.

Q. Do I have to have an appointment to receive a vaccine?
A. Yes, an appointment is required to receive your vaccine. Please visit our website lukesvaccine.com for more information and to submit a pre-registration request for a vaccination appointment. Vaccine doses are allocated based upon the appointments scheduled on a first come, first served basis to individuals who have pre-registered at lukesvaccine.com. Our vaccine clinic cannot accommodate walk-in requests and is unable to vaccinate non-Missouri residents.

Q. How does the vaccine pre-registration process work? If I pre-registered, do I have a vaccine appointment?
A. The form on lukesvaccine.com is a request to pre-register to schedule an appointment at St. Luke’s COVID-19 Vaccine Clinic. You will receive notification via email to schedule your vaccination appointment when our clinic has doses and appointments available.

Vaccine doses are administered by appointment only at St. Luke’s Vaccine Clinic on a first come, first served basis to individuals who have pre-registered at lukesvaccine.com. In keeping with safety precautions and available vaccine dose supply, our vaccine clinic is unable to accommodate walk-in requests.

Q. Are separate pre-registration forms needed for my spouse and myself?
A. Yes, each person requesting pre-registration should complete and submit the form available on the lukesvaccine.com website.

Q. I do not use a computer or have an email address. How can I submit a request to pre-register for St. Luke’s COVID-19 Vaccine Clinic?
A. If you are a Missouri resident and wish to pre-register for an appointment at St. Luke’s vaccine clinic, but do not have an email address or access to a computer, your physician’s office can assist you to register on lukesvaccine.com, a member of
your family can register you through their email address using the form on our lukesvaccine.com website; or the family member assisting you can send your name, telephone number and date of birth to our vaccine clinic email: SLHCovidVaccine@stlukes-stl.com, with subject line: Request to Be Placed on COVID-19 Vaccine Waiting List. You may also call our scheduling assistance help desk at (636) 685-7878 to request pre-registration. Please note that completing the online form at lukesvaccine.com is the most expedient way to pre-register.

Q. I understand that the COVID-19 vaccine is administered in two doses. After receiving my first dose, do I have to submit another online request to pre-register for my second dose of the vaccine?
A. The vaccine is administered by appointment only in two doses that are given a minimum of 21 days apart. If you receive your COVID-19 vaccine through St. Luke’s, the appointment to receive your second dose will be discussed with you at the time you receive your first dose. You will not need to submit another pre-registration request to receive your second dose. St. Luke’s is unable to provide second doses of the vaccine to individuals who did not receive their first vaccine dose through our vaccine clinic.

Q. I am not a Missouri resident, but my healthcare provider is at St. Luke’s. Can St. Luke’s provide my vaccination for COVID-19?
A. Effective February 19, 2021, only Missouri residents are eligible to receive the vaccine from their Missouri-based healthcare provider. The federal government allocates vaccine to each state based on population, and so each state’s allocation reflects their own population. Non-Missouri residents must seek vaccination in their home state. Please consult your local or state health departments for information regarding vaccinator sites near you.

Q. I would like to have more information about the COVID-19 vaccine/State of Missouri’s COVID-19 vaccination program in general. Where can I obtain this information?
A. For the most up-to-date information regarding the pandemic and vaccine, please visit the Missouri Department of Health and Senior Services COVID-19 vaccine website MOSTopsCOVID.com or the Centers for Disease Control and Prevention (CDC) Website: cdc.gov/vaccines/covid-19.
